### Material & Detail Selection

Next, we carefully curate materials, finishes, lighting, and furnishings. Every element is chosen to match the mood, functionality, and character of the space.

We start by listening. Understanding your needs, style preferences, and functionality requirements helps us set the foundation. Whether it's a home or a commercial space, we dive deep into your vision.

### Discovery & Consultation

We translate your ideas into concept visuals—mood boards, color palettes, and layout suggestions. This phase focuses on the feeling of the space, not just its look.

## Handover & Delight
